***Love God, Heal Earth: 21 Leading Religious
Voices Speak Out on Our Sacred Duty to
Protect the Environment by Sally G. Bingham***

Can we save the earth? The answer could hinge on the phenomenon of the fast-growing interfaith religious environmental movement. The author makes the case for environmental stewardship that cuts across old divisions of faith and politics. She presents 20 fellow religious leaders and eminent scholars (from rabbis to evangelicals to Catholics, Muslims and

Buddhists) each contributing an original essay-chapter, with personal stories of awakening to the urgent need for environmental awareness and action.
